Panel discussion and Q&A with the audience

- Understanding of each associations: Where are the members' awareness and actions on the ITS Directive & Delegated Regulations?
- What benefits do you see in putting data on the NAPs? What are the biggest challenges?
- What specific actions could have the highest impact (training, definitions, support centre, information...)?
- How can NAPCORE respond to the requirements expressed by the stakeholders? How can NAPCORE support the members? Needs for action beyond NAPCORE?
