Pan-European coordination on Mobility Data

NAPCORE is:

- **a project/initiative/organisation (co-)funded (€21.5m) by the European Commission**
- **covering most of Europe (all EU MS + 6 countries)**
- **currently about to start the second phase, NAPCORE's first funding phase is ending in June**
- **the only pan-European project dealing with mobility data for traveller information**
- **working on data standardisation (DATEX II, TN-ITS, NeTEx, SIRI) and interoperability of National Access Points for harmonized mobility data access throughout Europe**

NAPCORE achievements so far

NAPCORE has achieved in its first phase 2021-2025 (excerpt):

- Bringing Europe together with a governance and working structure
- Strong stakeholder engagement via Advisory Board (see graphic) and Cooperation Agreements (with EPA, CIE, POLIS, C-Roads, DFRS)

- Created a first metadata catalogue specification for mobility data platforms (not only NAPs) to enable interoperable discoverability of data: mobilityDCAT-AP

NAPCORE achievements so far (cont'd)

- **Joint Position Papers on the revisions of the ITS Directive, the MMTIS Delegated Regulation, the planned SRTI revision (to be published in June)**
- **Work on data standards included the merger of TN-ITS and DATEX II, a common harmonization roadmap, new versions of the standards**
- **First version of an ITS Data Dictionary to create a common understanding**
- **Creation of a NAP Level of Service KPI Framework for NAP harmonisation**
- **Several demonstrators showcased use-case based NAP interoperability**
- **National Body harmonisation by creating common forms and processes for compliance assessment**
- **158 milestones achieved by >70 partners and >500 experts**

NAPCORE next steps

- **Second funding phase about to start in July 2025 until December 2027**
- **Set up of a sustainable long-term governance for the time after 2027**
- **Consortium of 77 partners from 33 countries, funded (85%) by DG MOVE**
- **Main goal: EU Member State coordination on ITS Directive data topics**
- **More focus on data and data standards for multimodal mobility**
- **More focus on community & domain management for stakeholder input and engagement to foster data provision and use**
- **Creation of national implementation roadmaps (implementing NAPCORE recommendations on national level in NAPs and National Bodies)**

THANK YOU!
